

Rope Parish Council Report on Shavington Academy May 13<sup>th</sup> 2019

Shavington Academy continues to provide a good standard of Education for their pupils.

They have a PAN of 850 which is to Capacity as it stands at present.

To enable the preferred teaching method of Each teacher having their own classrooms they have been creating classrooms from within to ensure this continues.

I feel they have taken this as far as they can within the current building.

The most recent is the splitting of the Sci Ma room to create a meeting room for visitors, this provides a secure room so that the visitor does not get into the main school if this is not required or warranted.

The Academy attained the Good Judgement Rating recently and continues to be the first choice for many parents for their child or children to be educated.
